She inherited her father's gift for loving life and seeing the best in all people.

"I use my father's philosophy as my guide for my daily practice, to living a life that is my message."

Ha founded Hope-Empowered to spread her message. Her mission is to motivate, inspire, and empower people to conquer their obstacles and to live with a promise in their heart...*hope*.

*"I didn't move a muscle while listening to Ha tell her story about life's journey. What captured my heart is that she isn't bitter, she is extremely grateful for her life that she has created for herself and her family. Her story is riveting. Even with all the pain that Ha has experienced she tells her story with a tone of humor. She radiates gratitude, strength and patience. Her message encourages us to do some self reflection about our own struggles and to see how gifted our lives have been."*
